

Ramić Vedad

SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

Software Engineering student with a strong passion for learning, building modern applications, and exploring new technologies. I enjoy developing full-stack web applications and continuously improving my skills through hands-on projects and problem-solving. My focus is on understanding modern development practices, cloud technologies, and creating efficient, scalable software solutions.

EDUCATION

Bachelor of software engineering

University of Zenica

Gymnasium

Musa Ćazim Ćatić, Tešanj

EXPERIENCE

Software developer - Intern | February 16th 2026 - March 28th 2026

GRAFiT GmbH, Zenica

- Contributed to the development and improvement of two open-source software projects.
- Implemented new features, fixed bugs, and optimized existing code using modern development practices and version control systems.
- Gained hands-on experience in real-world software development, teamwork, problem-solving, and collaborative project workflows.

PROJECTS

eDiploma | Full-Stack desktop application - <https://github.com/vedadramic/eDiploma-app>

- eDiploma resolves the administrative bottlenecks associated with the thesis defense application process
- The application features a modern, responsive UI built with JavaFX, styled with BootstrapFX, and utilizes MySQL for robust data persistence.
- A desktop application designed to streamline the Bachelor's thesis defense process for university faculties.

Smetovi | Open source project - <https://github.com/vedadramic/smetovi>

- Contributed to the improvement of the Smetovi web platform, an open-source project showcasing the natural beauty and activities of the Smetovi area.
- Gained hands-on experience in team collaboration using Git for version control, code review, and task coordination within a shared development workflow.

COMMUNITY INVOLVEMENT

- Member of Omladinska Banka Doboj Jug
 - Licensed radio amateur (**E75VRM**)
 - Organizer of 3x3 basketball tournaments
-
